you've done it now youve gone and made a big  
mistake  
and i cant allow you to  
think you can just walk away so turn around and face  
the price that your gonna  
pay cause the end is now this is gonna be your  
judgement  
day a cheap shot thats  
the way that you pay the game i was blind sided things  
will never ever be the  
same nice guys it said they always finish last but  
bad asses always kickin ass  
holes ass your gonna pay your gonna pay theres no  
forgiveness  
this time your  
gonna pay your gonna pay its my business your mine  
your gonna pay your gonna  
pay im burnin his ones to the ground your gonna pay  
your gonna pay im gonna  
bring you down your gonna pay your gonna payim  
gonna  
bring you down your gonna  
pay your gonna pay ...your gonna pay your gonna pay  
no more chances no more  
excuses no lies your stories endin time to say your  
goodbyes nice guys it said  
they always finish last but bad asses always kickin ass
