### "You Make It Better"

Visit "[You Make It Better](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When I met you on  
I was looking for love  
But when you came along  
My love became so strong  
Its never been easy  
To let me love myself

Do you wanna stay the touch of your hand  
Makes it all go away

[chorus]  
You make it better  
When we are together  
Yeah you make it better  
Everyday...

When you're not around  
I was feeling so lonely  
Driving down the road  
I was running on empty  
Then you made it easy  
By seeing somebody else

Do you wanna stay the touch of your hand  
Makes it all go away

[chorus]  
You make it better  
When we are together  
Yeah you make it better  
Everyday...
