Bodies are bursting apart

Volcanic eruption of guts

Exploding cadavers bring forth

A bloodbath to torment all life

The sky and the earth are now tainted by

Blood

Death is to blame for this enormous

Flood

The bodies are bursting apart

Volcanic eruption of guts

Detonate, polluted, pandemic

Unburied decedents that no longer die

Dispelled amok amongst sickness

The dead and living are one

When dormant bodies are bursting

The sky and the earth are now tainted by

Blood

Death is to blame for this enormous

Flood

The bodies are bursting apart

Volcanic eruption of guts

Infernal, disaster, revulsion

Dormant bodies bursting

Bodies are bursting apart

Volcanic eruption of guts

Exploding cadavers bring forth

A bloodbath to torment all life

The sky and the earth are now tainted by

Blood

Death is to blame for this enormous

Flood

The bodies are bursting apart

Volcanic eruption of guts

Detonate, polluted, pandemic
