Pulling Hair Blues (Alan Wilson, S.L. Taylor)

Well I don't know the reason but I can sleep at night  
Well I don't know the reason but I can sleep at night  
Seems like traveling around the world I should have  
better times

Well I eat to much I pull a hair from my head  
Well I eat to much I pull a hair from my head  
Well there is no satisfaction no matter where in the  
world I go

Well I can sleep out in night and I can get late  
Well I can sleep out in night and I can't eat, get late  
when the sun comes up the morning still I task and turn

And the train rides out too long, rains all the time  
the train rides out too long and it rains all the time  
And there's just no relief for my troubled mind."
