A quivering pile of useless flesh, locked in a  
Padded cell  
Hidden of the prying eyes of curiosity  
Experimental surgery made him what he is today  
His head is rotting but his body lives on as a  
Worthless vegetable  
Unknown to mankind, the incredible power of  
His mind  
Hideous heredity, genetic imbalance, resorting  
To cannibalism  
A feast begins as the patients skull is cracked  
Open like a walnut  
Brains devoured in a frenzied slaughter, thirst  
For gore nothing more  
Bile is dripping, puss from wounds, as the  
Coroner drinks it down  
The sights before your eyes you can't describe  
A trip through this living hell will rot away your  
Skull  
Genital laceration, anal asphyxiation  
Blockage of bowel passage, defecation,  
Hemorrhage  
Cadaverous mutilation, metamorphical radiation  
Devourance of arteries, decapitated extremities  
Cranial excavation, cerebral liquidation  
Brain turned to soup, ears are dripping goop  
Slimy, oozing, dripping puss, torn out  
Fingernails starting to fuss  
Shredded cartilage victim lies, eyes sockets, but  
No eyes  
Miles of intestines strewn all about, facial  
Features stricken with gout  
Hanging bodies dripping with blood, the  
Blackened fluid sinks in the mud  
A quivering pile of useless flesh, locked in a  
Padded cell
