As the blood begins to gush out the side of your neck
I thrust my cold steel into your face, your closer to
death
A twelve inch blade will help decide your ultimate fate
Stabbed in the throat
For no reason but to kill, for no reason but the thrill
You must die for me survive
Stabbed in the throat
I believe in sacrifice, sliced open with my knife
Your body is now life deprived
Vocal chords twitching, esophagus severed, a
haemorrhaging brain
Your lacerated jugular vein is spurting away
As mortality fades I am ready to flay you whole body
and head
Vigorously carving this fresh human flesh, I am one
with the dead
Stabbed in the throat
For no reason but to kill, for no reason but the thrill
You must die for me to survive
Stabbed in the throat
I believe in sacrifice, sliced open with my knife
Your body is now life deprived
I'm chewing bloody skin from the cadaver
Consuming lifeless meat, mangled and tattered
Half-eaten corpse lies skinless in the gutter
I am revitalized
Odium, embedded in my skull
To kill and eat your prey a way of nature
The taste of death must consciously be savoured
My cannibal existence never endangered
Just look into my eyes
Subjugate, intensity to blame
Gnawing on the head, sliced to fucking shreds
Knife to the gullet results in cessation
Stabbed in the throat
For no reason but to kill, for no reason but the thrill
You must die for me to survive
Stabbed in the throat
I believe in sacrifice, sliced open with my knife
Your body is now life deprived
