Well whiskey and wimmen, going to be the death of me  
Well whiskey and wimmen, going to be the death of me  
Well now I'm telling everybody, that they will not let me  
be.

Well my baby left me, she done left for some-body else  
Well now my baby she left me, she done left for some-  
body else  
Well I get sick and tired Lord of sleeping all by myself.

Instrumental break

It was late one evening, I was packing my leaving trunk  
Well, it was late one evening, I was packing my leaving  
trunk  
Well I didn't have no whiskey, but them blues made me  
sloppy drunk.

Well I tried last night, and I tried the night before  
Well I tried last night, and I tried the night before  
Well I told my woman, I didn't love her no more.
