My deep aversions, building for years  
Smoldering contempt internally burns  
Dark introspection, memories of scorn  
Every slight an element of my simmering mind

Conflicted modules, dictate my course  
Feed me violence and my hatred will gorge  
Resolve is growing, it must be done  
And to this fury I'll be forced to succumb

Rage  
This notion of murder is no longer vague  
Seethe  
Your life I abominate

Rage  
Boiling deep within my head  
Seethe  
My mind is a cauldron of hate

Concealed revulsion, benign facade  
Roiling dreams of murder coursing through my skull  
Savage visions, nearing the brim  
How can I contain this murderous rage?

The mental picture, becoming clear  
Execration too extreme to bear  
An execution, my plan of action  
Advent of the day of blood no longer imagination

Scream  
The horrors of vengeance unleashed on you now  
Bleed  
Your body will suffer my pain

Scream  
Your body will writhe as my mind long has  
Bleed  
My mind is a cauldron of hate

Terrorize  
Realization that your final day has come, your demise

Torturing you to death brings satisfaction to my livid  
brain

Die  
I carve your flesh  
Tear off your face  
Retribution  
This death your fate

Rage  
This notion of murder is no longer vague  
Seethe  
Your life I abominate

Rage  
Boiling deep within my head  
Seethe  
My mind is a cauldron of hate

Scream  
The horrors of vengeance unleashed on you now  
Bleed  
Your body will suffer my pain

Scream  
Your body will writhe as my mind long has  
Bleed  
My mind is a cauldron of hate
