Demolition of bodies, smashed and broken,  
piles of guts, moist and steaming  
Tendons severing, brains are boiling, unburied  
corpses in state of decay  
Rotten limbs start to ferment, torso's torn in  
two  
Skin ripped off to expose muscle tissue,  
butchered for human stew  
Crawl into the cadaver head first, eat your way  
through the guts  
The pungent smell of decaying innards is  
enough to drive you nuts  
The spleen of the carcass is oozing from your  
mouth  
As you chew on the piss filled kidney's  
Suck the vomit through intestines, leaving  
nothing but bones  
Violently cutting, seriously hacking, sounds of  
death fill the air  
Bones sticking out, ripped from sockets, blood  
spurting everywhere  
Victim lying dead, neck but no head, smearing  
remains on your own face  
Violently cutting, seriously hacking, sounds of  
death fill the air  
Blistering flesh, another death, stiffened bones,  
morbid groans  
Evil minds, brains oozing slime, feel the pain  
Body weak brain contorting, fluid flowing from  
your organs  
Veins torn out, Mangled  
Festering flesh, quivering cadaver, ligaments  
stretched around your own neck  
Drink the puss, Mangled  
Severed dick, bloody bowels, the gutted corpse  
now lies hollow  
Feeding on feces, Mangled  
Amputated arms, crushing legs, head is ripped  
right off your shoulders  
Thrown in a pile, Mangled  
Limbs rearranged, head on backwards a

humongous heap of twisted flesh  
Sewn together, Mangled-Mangled  
His knife plunges in, your cold battered body  
Blood seeping through, the jagged wounds the  
cuts  
Unbearable pain, give into death  
Your life slips away, perish in blood  
Menacing madman mutilating  
Destroying disfiguring, dead you'll be  
Crushing cracking killing you  
Annihilation, desecration  
Born through modern day science  
Man has made his last mistake  
A creature so hideously horrible  
Leaving nothing to waste  
Evil has a new face, a mangled horrible face  
His views are those of death, nothing will stop  
his lust  
Slicing victims left to decay, listening to their  
mortal cries  
Unhuman, immortal, bestial, now he owns  
your soul  
Crawl into the cadaver head first, eat your way  
through the guts  
The pungent smell of decaying innards is  
enough to drive you nuts  
The spleen of the carcass is oozing from  
your mouth  
As you chew on the piss filled kidney's  
Suck the vomit through intestines, leaving  
nothing but bones  
Human converted to beast, the perfect killing  
machine  
Psychotic structure of brain tissue, murder his  
only memory  
Dependant on death, crushing your head, I'm  
addicted to blood  
Chew the decay  
The weakened man must die, tearing out his  
insides  
Smashing all the bones, hear his tormenting  
groans
