[Incomprehensible] decay of life
Ruthless, dead monolith
Human race will be devoured
Cannibals

Ghoulish, undead vanguard
Silent killers striking quickly
Blood lust, for the living
Eat their flesh drink their blood

Callous, in their method
Murderers, murderers
Horrific infiltration
Monolith of undead

Slay the living
Is only object for this
Bestial rotting horde
Slaughtering the helpless
Slaughter all that lives

Driven by an evil force
To feed on humankind
Exterminate resistance
Exterminate them all
Cunning and yet mindless
Stealthfully they kill

Army of decay plodding
Toward the breathing ones
Countless decomposing
Corpses walk upon the earth
Outnumbering the living
Soon they'll be extinct

Zombie, seek life
Mindless killing all in sight
Addicted to entrails
They crave warm flesh

Hunting, dead seek
Ruthless feeding on the weak

Savagery prevails
Tear them to shreds

Fighting, undead
Flesh wounds bleeding black not red
Invincible undead force
There is no hope

Zombies, devour
Quicken mankind's final hour
Fate will run its course
There is no hope

Walking dead surround
Search for living flesh
Ambush on the town
Takes a shocking toll
Screams of living fade as
The dead destroy their lives, they die

Hollowed bodies heap
Empty carcasses
Innards are devoured by the mob of ghouls
Remaining living flee the horde

Ghoulish, undead vanguard
Silent killers, striking quickly
Blood lust for the living
Drink their fresh blood

Callous, in their method
Murderers, murderers
Horrific infiltration, monolith

[Incomprehensible]
Caused by this monolith
Human race was sacrificed
Their future does not exist

Armies of undead
Slaying the living
Bestial rotting horde
Monolith of death
Cannibals
