Temptation to kill again, the sensation comes over me.
An addiction to murdering, I can't stop killing.
You tried to stop me, dead, before you started.
Put me away, before I put another in the grave.
Pulverized, knocked down, it came up behind me. In
the dark.
Overwhelmed, I feel life slip from me, this isn't
happening, =
pulverized.
I won't sustain these injuries, pick up the pieces of me.
Temptation to kill again, the sensation comes over me.
An addiction to murdering, I can't stop killing.
You tried to stop me, dead, before you started.
Put me away, before I put another in the grave.
Pulverized, knocked down, it came up behind me. In
the dark.
Overwhelmed, I feel life slip from me, this isn't
happening, =
pulverized.
I won't sustain these injuries, pick up the pieces of me.
Temptation to kill again, the sensation comes over me.
An addiction to murdering, I can't stop killing.
You tried to stop me, dead, before you started.
Put me away, before I put another in the grave.
Pulverized.
An addiction to murdering, I can't stop.
