

## Cannibal Corpse

### "Skull Full Of Maggots"

Visit "[Skull Full Of Maggots](#)" on MotoLyrics.com

Lying there cold after a torturous death  
Your life ended fast you took your last breath  
Dead in a grave, your final place  
The maggots infest your disfigured face  
Puss through your veins takes the place of blood  
Decay sets in, bones begin to crack  
Thrown six feet down left to rot  
Brains oozing black down the side of your broken neck

Skull full of maggots

They enter your tomb-maggots-beginning to feast-  
maggots  
Crawling on you-maggots-now they eat you-maggots  
Rotting maggots-maggots-infesting your corpse-  
maggots  
Parasites of the dead-maggots-now dwell in your head

Lying there cold after a torturous death  
Your life ended fast you took your last breath  
Dead in a grave, your final place  
The maggots infest your disfigured face  
Puss through your veins takes the place of blood  
Decay sets in, bones begin to crack  
Thrown six feet down left to rot  
Brains oozing black down the side of your broken neck
