As the blood begins to gush out the side of your neck
I thrust my cold steel into your face, you're closer to
death
A twelve inch blade will help decide your ultimate fate
This summons to die has been given to you for
accepting my hate

Stabbed in the throat
For no reason but to kill, for no reason but the thrill
You must die for me to survive
Stabbed in the throat
I believe in sacrifice, sliced open with my knife
Your body is now life deprived

Vocal cords twitching, esophagus severed, a
hemorrhaging brain
Your lacerated jugular vein is spurting away
As mortality fades I am ready to flay your whole body
and head
Vigorously carving this fresh human flesh, I am one
with the dead

Stabbed in the throat
For no reason but to kill, for no reason but the thrill
You must die for me to survive
Stabbed in the throat
I believe in sacrifice, sliced open with my knife
Your body is now life deprived

I'm chewing bloody skin from the cadaver
Consuming lifeless meat, mangled and tattered
Half-eaten corpse lies skinless in the gutter
I am revitalized

Odium, embedded in my skull
To kill and eat your prey a way of nature
The taste of death must consciously be savored
My cannibal existence never endangered
Just look into my eyes

Subjugate, intensity to blame
Gnawing on the head, sliced to fucking shreds

Knife to the gullet results in cessation

Stabbed in the throat

For no reason but to kill, for no reason but the thrill

You must die for me to survive

Stabbed in the throat

I believe in sacrifice, sliced open with my knife

Your body is now life deprived
