Water water  
Oh-oh well she gave me water  
And it was not from the well.

I met a woman from Liberia  
Well she gave me that coola coola water  
Well uh-oh well she gave me water  
And it was not from the well

Well well  
I met the woman from Liberia  
Well she gave me that coola coola water  
Well uh-oh well she gave me water  
And it was not from the well

Well well  
I asked this woman from Liberia  
Where did ya get that coola cool water  
Well Where'd ya get the water that was not from the well

Well well  
Well I got it from the mountains'  
The mountains so high  
And I got it from the river now the river is dry  
Well uh-oh coola coola water  
And it was not from the well

Well well  
Well I got it from the mountains,  
The mounains and the sea  
Now the Good Lord gave this water to me  
Well uh-oh coola coola water  
And it was not from the well

Well well  
Well I got it from the mountains,  
The mounains and the sea  
Now the Good Lord gave this water to me  
Well uh-oh coola coola water  
And it was not from the well

Well well  
I got it from the rain that fell from the sky  
And I got it from the bubble in a brook nearby  
Well uh-oh coola coola water  
And it was not from the well

Well well  
I asked this woman from Liberia  
Where did ya get that coola cool water  
Well uh-oh where'd ya get the water that was not from  
the well

Well well  
I asked this woman from Liberia  
Where did ya get that coola cool water  
Well uh-oh where'd ya get the water that was not from  
the well  
Wella wella wella wella  
Was not from the well  
Wella wella wella wella  
Was not from the well  
Water water
