A moment of clarity a moment of truth
Spare me the charity and just call a truce
Minus ten times the worst feelings endured
If you're boring you're bored

And it's all the same in different ways
It's all the same in different ways
We're all to blame on different days
And it's all the same

Strangers they stare at me but i seem aloof
Save the disparities and just show me proof
Ten times i tried but still one time i scored
There's not much to gain when you're whoring the
whored

And it's all the same indiffernt ways
It's all the same in different ways
We're all to blame on different days
It's all the same

So play with your heart and sing with your hands
Go with the motions and don't understand
I play the believer i know it quite well
Soon they'll be singing my songs down in hell
Signing la la la la la ti na la te da
Yeah la la la la follow denial la te da

And we travel great distance for no long way to go
If you are still eager then you do not know
Truth is a virtue but it isn't a must
Until i ring true in my dog i will trust singing
La la la la la la ti na la te da
Yeah la la la la la la follow denial la te da

And the pain will inherit the good ones
And the sane can just know they feel sad
You can't push to gain firm standing
Still it makes me feel good to know you can feel bad
And i'm crying
La la la la la la ti na la te da

Yeah la la la la follow denial la te da...
