Jimmie Rodgers
"Over It"

The way you put me down
The way you put me down
Aw baby i'm over it

The way you put me down
The way you put me down
Now baby i'm over it

And you don't have to worry
'casue i'll be fine, fine, fine, fine, fine

The way you put me down
The way you put me down
Now baby i'm over it

We're gonna bust it wide open
Make them scream and shout
Anyone wanna join and we'll knock this one out
We're gonna bust it wide open
If there ever was confusion now let their be no doubt

That i'm over it
Yah i'm over it
Yah i'm over it
Yah i'm over it

The way you put me down
The way you put me down
Now baby i'm over it

The way you spread your love
All over the town
All baby i'm over it

And i'm not gonna worry
And i'm not gonna worry
About were you've been
Were you been it's a sin
The way you put me down
Feel like my heart six feet under the ground
And i'm up over it

We're gonna bust it wide open
Make them scream and shout
Anyone wanna join and we'll knock this one out
We're gonna bust it wide open
If there ever was confusion now let there be no doubt

That i'm over it
Yah i'm over it
Yah i'm over it
Yah i'm over it
Yah i'm over it
Yah i'm over it
Yah i'm over it
Yah i'm over it
It
