Will you hold my heaven lovely star
Will not lose my way home in the dark
Hail a time for change
And i am one idle man
Tears in time i will join you, yeah
We are one when you see my muse
Why won't you know i hold tight to you
Still, still, still, still

Will you call out my name or make me wait
I remember your face on last day
I hear a soft distant tune
Holding still, there's so much life
Hell, live my dreams at night
When i open my arms to you
Only to be awakened again
I'm in my bed lying here

Still(x4)
I love you still
Still(x18)
