Is this the sound you make
When you cannot find the words
Is there more than you can bare
I guess we'll never really learn

If i fall in love with you
Will i fall into myself
And is there more than i could give
That isn't left upon your shelf

And what it is
It's beautiful
I kinda sense
There's so much more

Is this the sound i make
When i cannot find the words
Is it more than i can bare
Do we ever really learn

If i fall in love with you
Would i fall into myself
Is it more than you could give
That isn't left upon your shelf

And what it is
It's beautiful
I kinda sense
There's so much more

Just want to hear that sound you make
Just want to hear that sound you make
Just want to hear that sound you make
Just want to hear that sound you make
