Tin cup won't work without the string
So hard to yell so far from home
So give me a call on the telephone
When your alone again
Tin cup won't work with the string
So hard to yell so far from home
So gimme a call on the telephone
When your alone again
Alone again
Alone again
Alone again
Alone again

Tin cup caller
Tin cup caller
Tin cup caller
Tin cup caller

So back break the messenger
And hard are the lessons learned
We got good communication
So on with the conversation

Tin cup caller alone again
Tin cup caller
Tin cup caller alone again
Tin cup caller

This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
I'm alone again
I break down
Break down again

What
Can you hear me
What can you hear me

Tin cup won't work with the string

Tin cup won't work with the string
Alone again
So far from home
Tin cup won't work with the string
Alone again
So far from hom
Tin cup won't work with the string
This song is a constant reminder
Alone again

Tin cup caller
Tin cup caller
Tin cup caller
Tin cup caller
Alone again

This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
This song is a constant reminder
