Water water

Oh-oh well she gave me water

And it was not from the well.

I met a woman from Liberia

Well she gave me that coola coola water

Well uh-oh well she gave me water

And it was not from the well

Well well

I met the woman from Liberia

Well she gave me that coola coola water

Well uh-oh well she gave me water

And it was not from the well

Well well

I asked this woman from Liberia

Where did ya get that coola cool water

Well Where'd ya get the water that was not from the well

Well well

Well I got it from the mountains'

The mountains so high

And I got it from the river now the river is dry

Well uh-oh coola coola water

And it was not from the well

Well well

Well I got it from the mountains,

The mounains and the sea

Now the Good Lord gave this water to me

Well uh-oh coola coola water

And it was not from the well

Well well

Well I got it from the mountains,

The mounains and the sea

Now the Good Lord gave this water to me

Well uh-oh coola coola water

And it was not from the well

Well well  
I got it from the rain that fell from the sky  
And I got it from the bubble in a brook nearby  
Well uh-oh coola coola water  
And it was not from the well

Well well  
I asked this woman from Liberia  
Where did ya get that coola cool water  
Well uh-oh where'd ya get the water that was not from  
the well

Well well  
I asked this woman from Liberia  
Where did ya get that coola cool water  
Well uh-oh where'd ya get the water that was not from  
the well  
Wella wella wella wella  
Was not from the well  
Wella wella wella wella  
Was not from the well  
Water water
