"Noseface"

Visit "[Noseface](#)" on MotoLyrics.com

As far as i can see
To the end of my nose
One good clue for your being here would let me in
What do you play for
Down in a thousand million worlds of nothing
What could ever be
Down from the mountain and you feel you are a king
Right on
Right on
Who is witness in this room
Who is safe, who is safe
Who is with us in this room
Who is witness in this room
No, no, no, no, no, no, no

As much as i can bee
To the end of this pose
One good clue for your being
Would you let me in
And what do you play for
Down in a thousand million worlds of nothing
What could ever be
Down from the mountain and you feel you are king
Right on, right on
Who is with us in this room
And who is witness in this room
And who is witness in this room
And who is witness in this room

people don't like to be told what to do
People don't like to be told what to do
People don't like to be told what to do
People don't like to be told what to do
Noseface, noseface, noseface, noseface
Noseface, noseface, noseface, noseface
