Iris A thousand steps Paperman Obviously Iris The jewish cemetery Paperman It may come in handy Iris Let me get him. your heart Paperman Stay here A thousand steps to nowhere That is all I see This night is asking questions Where and what for me A thousand miles from henny Who warned me from the start I feel foolhardy, I miss sardi's Thought I was so smart Chorus Down is up, up is down That's just life in kinja town The natives and the castaways That's just life for me these days Henny I've had it with this weather My skin is pale as bleach I'm heading back to kinja And stretch out on the beach My past is in these boxes All clean and neatly packed No time for sorrow, I leave tomorrow There's no turning back No turning back, I'm island bound I want to turn from white to brown Sing and dance to calypso songs Trade in this mink for a pink sarong Iris I really do admire him And what he's taking on This island and these crazies But I fear he'll soon be gone Can't let myself fall for him A terrible mistake He's got henny, I'm one too many This time my heart could break Chorus A thousand steps to nowhere That is all I see Paperman My heart is pounding madly Iris Mine too, won't let me be A thousand reasons not to Paperman Strange but oh so true I'm behaving Iris You're not past saving A thing we both should do Henny Cause he's happy Duet Down is up, up is down Henny I understand Duet That's just life in kinja town Henny Cause he's my man Duet The natives and the castaways That's just life for us these days Henny Cause he's happy Duet Down is up, up is down Henny I understand Duet That's just life in kinja town Henny Cause he's my man Duet The natives and the castaways Ensemble That's just life for us these days That's just life for us these days Paperman Gilbert come and prime the pump
