Siting here in this coffee shop  
Not knowing what to do  
Not knowing wether to start or stop  
This fight ain't between just me and you

All the boys they've been talking  
They've been saying your doing me wrong  
Yes they have

And all the boys, the boys cry out for war

The man siting there in Washington  
He don't know right from wrong  
He don't know wether to stand and fight  
Or turn around and run  
All his boys they've been talking  
They've been saying your doing him wrong  
Yes they have

And the boys, the boys cry out for war  
Yes they do

The man siting there in Washington  
He don't know right from wrong  
He don't know wether to stand and fight  
Or turn around and run  
All his boys they've been talking  
They've been saying your doing him wrong  
Yes they have

And the boys, the boys cry out for war  
Yes they do  
And the boys, the boys cry out for war  
Yes they do
