Desdemonas building a rocket ship

By: jimmy buffett

1996

Desdemonas building a rocket ship

Desdemonas going away

Desdemonas building a rocket ship

Blasting off today

Shes got a passion for cookies

A crew full of rookies

Its going to be a hell of a blow

Desdemonas building a rocket ship

And Ive got to go

A women on a mission

Quite familiar with quasars

Her heart is in a kitchen

But her soul is in the stars

Crystal clear on logic

But short on expertise

This is a very ancient puzzle

She feels herself a piece

Desdemonas building a rocket ship

Desdemonas going away

Desdemonas building a rocket ship

Blasting off today

She got a passion for cookies

A crew full of rookies

Its going to be a hell of a blow

Desdemonas building a rocket ship

Guess Ive got to go

She was down in puerto rico

Doing a scientist

True, he was no geek though

She was taken with his kiss

It was under the giant telescope

Were she heard the calling voice

It came screaming though the light years

She never had a choice

Pleiades calling her home
Seven sisters, she hears her distant sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters

Pleiades calling her home
Seven sisters, she hears her distant sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters

A woman on a mission
Quite familiar with quasars
Her hearts still in the kitchen
But her soul is in the stars
Her engine fuel with logic
And navigation expertise
Its a very distant puzzle
She gonna to get her piece

Desdemonas building a rocket ship
Desdemonas going away
Desdemonas building a rocket ship
Blasting off today
She got a passion for cookies
A crew full of rookies
Its going to be a hell of a blow
Desdemonas building a rocket ship
Ive just got to go

Yea, oh yea
Seven sisters, she hears her distant sisters
Yea, oooooowwww!
Pleiades calling her home
Seven sisters, she hears her seven sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters

Pleiades calling her home
Seven sisters, she hears her distant sisters
Pleiades calling me home
Seven sisters, she hears her seven sisters
