You were just a dream that I once knew
I never thought I would be right for you
I just can't compare you with, anything in this world
You're all I need
to be here with
Forevermore...

There are times
When I just want to look at your face
With the stars in the night
There are times
When I just want to feel your embrace
In the co-o-old night
I just can't believe that you are mine now.

You were just a dream that I once knew
I never thought I would be right for you
I just can't compare you with, anything in this world
You're all I need
to be here with
Forevermore...

Time and again
There are these changes we can not end
As sure as time keeps going on and on
My love for you will be forevermore

I just can't believe that you are mine

You were just a dream that I once knew
I never thought I would be right for you
I just can't compare you with, anything in this world
as endless as forever
our love will stay together
You were wrong
I need to be here with forevermore...
