take my hand
we'll walk a while we'll talk a while
feel my love always there beside you
be the one
i know you'll tell me every thing
you are the one, i cherish more then everything

[chorus]
i love you more then you'll ever know
i love you more then you'll ever see
more then my heart could ever show
i love you more then you'll ever know...

think of me
and know that i'll be leaving you
there'll always be this precious time together
with every tear, love so strong no words could ever say
a love to last forever

[chorus]

take my hand ,we'll walk a while ,
we'll talk a while
feel my love always there beside you
and be the one
i know you'll tell me everything
you are the one.... i cherish more then anthing

[chorus]
