(feat. Toots And The Maytals)

Hey hey hey hey hey
I want you to believe every word I say
I want you to believe every thing I do
I said music is what I've got baby
And I've got to find some way to make it
Music is what I've got baby
I want you to come on and shake it
Shake it, shake it baby
Oh yeah

Funky funky funky
Funky Kingston is what I've got for you, oh yeah
Funky Kingston, yeah is what I've got for you

Funky Kingston

Watch me now, you watch me now
Played from east to west yeah
I just played from north to south, yeah
All across America people keep on asking me for Funky
Kingston
But I ain't got none
Somebody take it away from me
You got to go and fetch one
Funky Kingston
