The Good Fight

by Jimmy Buffett

D G

They talk about their women too much

A D

The women got 'em so confused

G

They don't talk about their lives as such

A D

My life is all I got to lose

You take it with a grain of salt

And laugh at teh complexities

Their good at picking all the faults

So I keep laughing so they don't pick me

G D A

But Jesus if I had to quit tonight

G D A

I'd never know if I was wrong or right

G D A

But that's just what you get

G A

You've got to go the distance

D G

If you want to fight the good fight

A D

Good fight

The telephone begins to ring

That could only be one call

I might as well be on the moon

Standing in a shower stall

I can't beleive she picked it up

She didn't know the rules somehow

I softly hear her say hello

Panic in the grey room now

But Jesus if I had to quit tonight
She'd kill me whether I was wrong or right
But that's just what you get
You've got to know the difference
If you want to fight the good fight
Good fight

You never know until you try
It's hard to see which side you're on
Some peopel say I'm halfway here
While some peopel say I'm halfway gone

Jesus if I had to quit tonight
I'd never know if I was wrong or right
But that's just what you get
You've got to go the distance
If you want to fight a good fight
Good fight
Keep it up and keep a good fight
Good fight
