1983

Middle of the night

Hold on till morning

We will see the light

Love is spawning

Middle of the night

Hold on forever

We'll know when it's right

All together

When will we listen

When will we ever learn

Read all about it

This tide has got to turn

Middle of the night

Hold on till morning

We will see the light

Love is spawning

Middle of the night

Hold on forever

We'll know when it's right

All together

Old folks and babys

They're crying in the storm

I tried to tell them

Soon they'll be safe and warm

Middle of the night

Hold on till morning

We will see the light

Love is spawning

Middle of the night

Hold on forever

We'll know when it's right

All together

Lord let us out of this hall full of mirrors

Make it all clearer

Don't let us fall
In the middle of the night

Middle of the night
New voices calling
Saying it's alright
Im not falling
Middle of the night
Halfway till morning
Middle of my life
New days dawning

Middle of the night
Hold on till morning
We will see the light
Love is spawning
Middle of the night
Hold on forever
Well know when it's right
All together

Middle of the night
New voices calling
Saying it's alright
Im not falling
Middle of the night
Halfway till morning
Middle of my life
New days dawning

Middle of the night
Hold on till morning
We will see the light
Love is spawning
Middle of the night
Hold on forever
Well no when it's right
All together
