Wake up and I'm thinkin bout you
Can't sleep cause I'm dreamin bout ya
I don't know what you put on me but I want some more

Flashbacks hit me all the time
Caught up and I'm loosin my mind
Waitin for you feel like a drug and I'm feenin for you

And I think I wanna whine it back
Damn near had a heart attack
And girl you're doin things to me I've never done
before
And I think I'm gonna hit rewind
Do it slow motion this time
Girl you really blow my mind but I'm asking you

Can I get a replay
I think I really need a replay
Cause the motion make me wanna
Replay replay replay
And I think I need a replay
I think I really need a replay
Cause the motion make me wanna
Replay replay replay

Baby you're my MVP clearly you're the best in the
league
Spotlight is on you the flags on the play baby this is so
you
Can we take this into over time up late but I don't mind
Let me watch the highlight cause your game is so tight

And I think I wanna whine it back
Damn near had a heart attack
And girl you're doin things to me ya never done
before
And I think I'm gonna hit rewind
Do it slow motion this time
Girl you really blowing my mind what I'm asking is

Can I get a replay

I think I really need a replay
Cause the motion make me wanna
Replay replay replay
And I think I need a replay
I think I really need a replay
Cause the motion make me wanna
Replay replay replay

Ah ah ah I can't keep my mind off you
N-n-n no nobody else will do
Cause what chu do for me got me stuck
And I don't want no substitutes

Ah ah ah I can't keep my mind off you
N-n-n no nobody else will do
What chu do for me got me stuck
And now I'm askin you

(Repeat chorus til end of song)
