"Come Back"

Every day away from you
Only makes me feel so blue
Oh, my darling, I beg of you
Come back, come back to my arms

Never meant to make you cry
Felt so bad at your goodbye
I'm so lonely, I could die
Come back, come back to my arms

Every day, I miss you
Miss you more and more
Every day, I need you
Need more you than before

Like the river and the sea
My love goes on endlessly
Oh, my darling, please hear my plea
Come back, come back to my arms

Come back, come back to my arms
To my arms
