We meet on the darkest street in town
We kiss when there's no one else around
We go where no one knows our faces
Standing in the shadows
Sharing our embraces
On the darkest street in town

We laugh about the world will never know
We hide each and every place we go
It seems that you and me are always
Ducking into alleys, dim litted hallways
On the darkest street in town

You belong to another
And, baby, I'm not free
Love like ours can't last too long
And even though we know it's wrong

We meet on the darkest street in town
We kiss when there's no one else around
Alone, so they won't discover
Meet me on the corner, see you later, lover
On the darkest street in town

Alone, so they won't discover
Meet me on the corner, see you later, lover
On the darkest street in town

Tonight, I'm gonna
Meet you on the corner
Round about midnight
Don't stand near the streetlights
Slipping and a-sliding
Go find a place for hiding
Cause we gotta keep it
Our very special secret
