"Beware"

Visit "[Beware](#)" on MotoLyrics.com

Something is happening in your backyard - be aware!
Someone is searching still to find a God - be aware!
Someone is sinking from the things that appear
Try to help them out and show them someone cares

Be aware of the robber, be aware of the neighbour
Be aware of your mother and your friend
Be aware of the preacher, be aware of the teacher
Take time out to think of someone else
Most of all, be aware of yourself

Goats want separation from the sheep - be aware!
Someone was thinking while you were asleep - be aware!
Don't criticize what you don't understand
Try to find out first before you say that's wrong

Be aware of the robber, be aware of the neighbour
Be aware of the father and your friend
Be aware of the leader, be aware of the teacher
Take time out to think of someone else
Most of all, be aware of yourself

Someone is saying just how they feel - be aware!
Someone is saying, "Man, this ain't real!" - be aware!
Times are changing like the leaves on a tree
You can't turn your back and just pretend you don't see

Be aware of the neighbour, be aware of the robber
Be aware of the sister and your friend
Be aware of the leader, be aware of the preacher
Take time out to think of someone else
Most of all, be aware of yourself

Be aware!
Be aware!
Be aware!
Be aware!
Be aware!
