'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

Just because she knows what to say, doesn't me she
trust worthy
Just because she's got a pretty face, doesn't mean
she's not dirty
After all the talk around place is that she's got a man in
each state
What you gonna say When she starts to creep and
you're wondering where she's been

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

Lady cool stop stressing, 'cause if you're gonna choose
please choose wisely
You're a fool if really think you could play the role of
wifey

'Cause after all you would probably grasp at drinking
from a dirty glass
Man if I were I wouldn't move to fast it just might be
your last

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

I'm just trying to let you know
'Cause I've been there before
See you don't need her, she's a man eater
She'll eat you to the core, then she'll ask for more

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

That girl she's a cheater

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through

'Cause if she cheated on him, she could cheat on you
Don't listen to what she say, watch what she do
She's like a thief in the night the way she be creeping
through
And like the worm in the apple, she gonna eat right
through
Repeat (fade)
