Gonna tell the world I love you can't keep it quiet
Everything I dreamed of darling came true tonight
Love that's been needed to make my life complete
Is here beside me and ain't life sweet

I hear love's music playing in the beat of your heart
Life's only regret my darling are the times we're apart
And all life's treasures are laying at my feet you're
here beside and ain't life sweet
Sweeter than honey sweeter than wine every day you
make my life so fine
A smile comes with everyday I breathe I'm in love and
ain't life sweet
[guitar]
Gonna tell the world I love you...
