If the whole world stopped lovin' the way you stopped  
lovin' me  
Have you ever stopped to wonder what kind of place  
this would be  
If the whole world stopped lovin' the way you stopped  
lovin' me  
If every heart was broken the way that you broke my  
own  
And the whole world stopped lovin' how long would  
livin' go on  
Hear the church bells in the steeple as they ring their  
song through the air  
If the whole world stopped lovin' there'd be no steeple  
bell there  
The tears would fill the river till the river's flooded the  
sea  
If the whole world stopped lovin' the way you stopped  
lovin' me  
If the whole world stopped lovin' the way you stopped  
lovin' me
