OPRAVIT

(Break my heart) it'll be easy (tear it apart) it'll be easy
All you have to do is say our love can't be that's enough
for me

(Say goodbye) tell me it's over (make me cry) hurt me
all over

If you wanna break my heart it'll be easy

I can tell you're searching hard to find a way to say
we're through

You're trying not to be unkind so I'll make it easy for
you

Just say that you don't love me it's better not to lie

But let me keep one memory fore you say goodbye

(Break my heart) it'll be easy...

If you wanna break my heart it'll be easy
