No more playin' games
Baby, come on

Am I losing my mind if I spend all my time
With a woman who ain't got my back
When I give you my dough, everything you ask for
Never givin' nothing back, no, no, no, no, no

Now you always wanna fuss and fight
You wanna criticize
Everything I do with my time
Girl, you're always so misty eyed
Play like you're gonna cry
Thinkin' I'm gonna change my mind

Girl, I'm tired of playing games with you
Keep it up and we gon' be through
'Cuz you wanna act like a goddamn fool
Then you wanna play like everything's cool

I don't try to let you mistreat me
Seeing how I gave you everything
You wanna be running back on me
Guess you fell in love with playin' me
Playin' me, playin' me

Girl, you must understand type of man that I am
Other women wanna take your place
So it's real hard for me, staying there and see
The way you're comin' out your face

Now you always wanna fuss and fight
You wanna criticize
The things I do to go and get mine
Girl, you're always so misty eyed
Play like you're gonna cry
When I'm 'bout to say bye-bye, yeah

When the night's get so cold and lonely
When the rain comes and I ain't there
Whatchu gon' do

Before the break of day you be reaching out for me
And all the shit you said, you will be answering me
'Cuz you, you gonna see just
Just what you lost when you lose me

Girl, I'm 'gon set you free
If you stay in love with playin' me babe
I had enough, don't make me leave
Don't make me leave

Girl, I'm tired of playing games with you
Keep it up and we gon' be through
'Cuz you wanna act like a goddamn fool
Then you wanna play like everything's cool

I don't try to let you mistreat me
Seeing how I gave you everything
You wanna be running back on me
Guess you fell in love with playin' me
Playin' me, playin' me

Girl, I'm tired of playing games with you
Keep it up and we gon' be through
'Cuz you wanna act like a goddamn fool
