North south east or west where can I forget her best
North south east or west which way should I go Lord I
just don't know

They say that Maine is beautiful and so is old Vermont
But beauty makes me think of her and that's what I
want

I've heard that California sun makes living seem
worthwhile

But sÅnshine makes me think about the way she uised
to smile

North south east or west...

[ac.uitar]

They tell me Pennsicola Bay has sand that's snowy
white

But I think about your soft white skin and yearn to hold
you tight

I've heard that northern Canada gets forty five below
But cold would make me think about the love I wanted
so

North south east or west...
