(George Jones - Pete Graves - Jimmy Dean)

Hello Mr. Blues, it's me again
Spendin' nights alone, no love to call my own
Remember me Mr. Blue, I've been here before
My heart's been kicked around, can't take much more.

Don't tell me Mr. Blues that she's to blame
I don't care who are right or wrong
I just know that she's the one for me
And she's gone Mr. Blues, she's gone.

--- Instrumental ---

Don't tell me Mr. Blues that she's to blame
I don't care who are right or wrong
I just know that she's the one for me
And she's gone Mr. Blues, she's gone...
