(Jimmy Dean - Ruth Roberts)

I got your word you got mine.

Although the time has come to say goodbye I know
Remember dear I leave my heart here when I go
True to you until the end of time
I got your word you got mine.

Though there'll be lonely hours ahead for you and me
When other arms are offering some company
Trusting me and we'll make up just fine
I got your word you got mine.

One day we'll both wake up and find us
With all our troubles far behind us
The time we'll part will only start us lovin' more
'Cause absence makes the heart grow fonder than
before

We'll travel along until the end of the line
I got your word you got mine.

I got your word you got mine...
