"Better Than Oh"

Totem pole, signs of death
Preach my mind, breaks our times
What secrets still, lifted my eyes
I'm by myself, just like i was before

Oh why can't we just find in someone
Stranded back in time
He said she's got photographs of
Endings of this world

Defy, defy

Bottom line, hard to find
Just what you're time, i think we'll mind
What better way, a longer ride
A single ?, i wanna find

Oh why can't we just find in someone
Stranded back in time
He said she's got photographs of
Endings of this world

Defy, defy, defy, defy
Alive to ride, alive to ride
