it's far fetched fun when you're the one.

The prize.

I knew you would come through.

I thought I could be right, number one,

but it's a lie.

It's televised in forest green.

it's been brought back by retro-man.

Hold your thoughts in.

It ain't yet over.

You won't slide under me.

The prize.

I knew you would come through.

I thought I could be right, number one,

but it's a lie.
