Totem pole, signs of death  
Preach my mind, breaks our times  
What secrets still lifted my eyes  
I'm by myself just like I was before

Oh, why can't we just find in someone  
Stranded back in time  
He said she's got photographs  
Of endings of this world

Defy, defy

Bottom line, hard to find  
Just what you're time, I think we'll mind  
What better way, a longer ride  
A single hour, I wanna find

Oh, why can't we just find in someone  
Stranded back in time  
He said she's got photographs  
Of endings of this world

Defy, defy, defy, defy  
Alive to ride, alive to ride
