One chance to show your face
There's one shot all you get
Pass by your one good thing
Lift your head back shoot and chase

Never hear you laugh like that, so full
Not since you were nine

Unsettled, severing always severing old ties
One last goodbye may last the rest of your life

Learn your restricted ropes
Paint a Cross on your left hand
One good thing signed away
And with it your only hope

Attention focused on today
So quiet slip behind my back

Unsettled, severing always severing old ties
One last goodbye may last the rest of your life

One way trip can work both ways
Loose ends kept untied make better friends
The things you buy may someday leave you
(Can you say full ride?)
I can still see you
(Can you say?)
I can still see you
(Can you say full ride?)
I can still see you around
(Can you say?)
Around
