I'll take your words  
As if you were talking to me  
So say what I know you'll say  
And say it through your teeth

Now in the deep and down  
Your heart moves  
Now in the deep and down  
I don't know how but I know I want out  
Wait for something better  
Will I know when it can be us?

Wait for something better  
Maybe that doesn't mean us  
Wait for something better  
I shouldn't, it's not enough  
Pull one excuse from another

And with pride  
Keep every failure in  
And with pride  
Hold on to your thinking

Now in the deep and down  
Your heart moves  
Now in the deep and down  
I don't know how but I know I want out  
Wait for something better  
Will I know when it can be us?  
Wait for something better  
Maybe that doesn't mean us

Wait for something better  
I shouldn't, it's not enough  
Pull one excuse from another  
This time it means stop, stop

Pull one excuse from another  
This time it means stop

Wait for something better  
Will I know when it can be us?

Wait for something better  
Maybe that doesn't mean us  
Wait for something better  
I shouldn't, it's not enough

Pull one excuse from another  
This time it means stop
