Faintest snow keep falling, falling yeah.
Hands around your waist.
Nameless, standing cold, standing cold.
Like a breath, like a breath.

Take in restraint like a breath.
My lungs are so numb from holding back.
Walk close to the fence
To feel it hit your clothes.
Turn and smile nice
Smile say good night, say good night.
In a breath, in a breath.
Simple discourse breaks you clean
Simple discourse breaks you clean in half.
Regret
Do try it once and then you know.
It's your move.
Settle for less again, again.
Like a breath
Like a breath
Like a breath
Like a breath
Take in restraint like a breath.
My lungs are so numb from holding back.
Eh, from holding back.
