This time it's on my own.
Minutes from somewhere else.
Somewhere I made a wish with Lucky Denver Mint.

You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn

Hurry go on ahead.
Good things won't let you wait.
I'll catch up when we get home.
At home I'll leave a dollar under water keeps on
dreaming for me.

You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn

Why can't I learn? (Why can't I learn?)
Why can't I...learn? Learn? Learn Learn!

You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn
You're not bigger than this, not better.
Why can't you learn
