He pauses shaving and he tells himself that he is the
bomb
She has her curler set her credit cards are paying the
funds
He's not that old I've been told a strong sexual goal
They go out everyday, she goes every way oh yeah
They don't even care at all
She's open waiting for more
And I know he's only looking to score
And it is way too unhealthy often they've typically been
starved
For attention before
She smokes a dozen and he doesn't seem to notice the
smell
He took the seat off his own bike because the way that
it felt
He wants bone this I know
She is ready to blow
They go out every night his pants are super tight oh
yeah
They don't even care at all
She's open waiting for more and I know he's only
looking to score
And it is way too unhealthy often they typically
Have been starved for attention before
