I struggle when there's something hard to say
I needed time so I took you and got me some space
Oh, it isn't that I understand
You just wondering wherever I am
And the look you give is like I'm lost
But you don't see how you could be equally turning
me on

I guess there's some things
You should never have
Never known about
We got a good thing
But you're better off not asking me how
It isn't so mean
Just to let it pass
Let it all go
Because there's some things
You should never have
Never known about
No never known about
No, never, no

I'd be lying if I told you it was just a kiss
I'd be lying if I said there wasn't more to it
So what you think it's gonna help
When you worry about everyone else
The options that I think you held
Say goodbye or get over it
Goodbye or get over it

Because there's some things
You should never have
Never known about
We had a good thing
But you're better off not asking me how
It isn't so mean
Just to let it pass
Let it all go
Because there's some things
You should never have
Never known about

No never known about
No, never, no

You know I don't ever sleep
Just stare up at the ceiling
I lay here and hate myself
Wishing I could be somewhere else
With someone just like me
Nothing complicated
All the feelings and fantasy
Can you trust, can you trust

That there's some things
You should never have
Never known about
We had a good thing
But you're better off never asking how
Well is it so mean
Just to let it pass
Let it all go
Because there's some things
You should never have
Never known about
No never known about
No, never, no
